Thanks Valois. Let me know if the versions of the Class III permit, fact sheet, and AE ROD you just sent me are the ones we can send to OGWDW later today.

Lucita gave me her comments on the Cumulative Effects Section, so I was able to incorporate all her changes into this version.

I actually did an EJ analysis using EJ Screen right after we met with April way back when. She & I got together for her to show me how EJ screen works, so I did that back when the process was fresh in my mind. I have not finished the EJ section in the Fact Sheet yet because I will have to go back & figure out what I did. I saved the results in a file, so it shouldn't be too difficult.
